Behance

Summary

Flutter developer with hands-on experience building mobile, web, and Windows applications. Skilled in creating smooth, high-performance user experiences, implementing clean UI, managing app state, and integrating RESTful APIs. Fast learner, detail-oriented, and motivated to contribute to innovative projects.

Education

Bachelor's Degree in Computer Science 2020 – 2024

Misr Higher Institute For Commerce & Computers M.E.T Academy Mansoura, Egypt

Certificates

- Misr Higher institute For Commerce & Computers M.E.T Academy
- Flutter & Firebase: Build E-commerce & Admin App

Experience

Flutter Developer — GROZA Aug 2025 – Present

- Developed diverse applications including Pharmacy App, Trelixi Learning (for children with dyslexia), Kanzoon (expense management & family challenges), Fitness App, and an educational platform.
- Built responsive, modern UIs with Flutter and improved overall UX.
- Integrated APIs and Firebase services (Auth, Firestore, Storage).

Flutter Developer — Tawr Company Aug 2024 – Jul 2025

- Developed multiple apps including services, gold price tracking, medical prescriptions, and electronic invoice apps, along with additional internal projects.
- Built responsive, modern UIs with Flutter and implemented smooth animations.
- Integrated secure APIs and managed local storage with SQLite & Hive.
- Applied Clean Architecture and MVVM for maintainable code.
- Collaborated with designers and backend teams using Agile workflows.

Flutter Developer — Fastweb Company Feb 2024 – Jul 2024

- Developed cross-platform mobile apps with Flutter and integrated REST APIs.
- Worked with Firebase services (Auth, Firestore, Storage).
- Optimized state management with Provider & Block to reduce unnecessary rebuilds.
- Built responsive UIs and reusable custom widgets.

Flutter Developer — Freelance 2022 – 2024

- Built multiple applications including E-commerce, Education, Services, Fitness, and Windows apps.
- Designed responsive UIs, admin dashboards, and integrated PayPal payments and APIs.
- Worked with Firebase including Authentication, Firestore, Realtime Database, and Storage.
- Created custom animations and improved overall user experience (UX).

Flutter & Firebase: Build E-commerce & Admin App [2024] (Udemy)

Projects

Pharmacy App

- Built with Flutter, Firebase and Supabase, with dual language support (Arabic/English) and dark/light themes.
- Integrated Paymob payments supporting credit cards, e-wallets, and cash.
- Implemented categories, offers, discounts, best sellers, latest products, advanced search, favorites, shopping cart, and smooth animations for improved UX.

Trelixi Learning App

- Flutter app for children (5–12) to improve Arabic language skills.
- Built 5 interactive levels: Root Family Discovery, Root Awareness, Derivational Patterns, Morphological Derivation, and Word Usage.
- Implemented responsive UI, animations, audio feedback, and progress tracking.
- Currently under development with new features being added.

Kanzoon App

- Flutter app for families to manage allowances, savings goals, and challenges.
- Built child profiles, dashboards, gamified learning, badges, and rewards.

- Arabic UI with progress tracking and smooth animations, under ongoing development.

TargetX App
- Flutter e-commerce app with API integration, state management, and responsive UI.
- Implemented product catalog, search, favorites, shopping cart, and checkout.
- Added smooth animations, clean architecture, and performance optimization for enhanced UX.

Services App
Built using Provider, FirebaseAuth, Firestore, FirebaseStorage, PayPal, with Clean Code, Responsive UI, and an Admin Panel.

Education App
Built using Provider, Responsive UI, and Clean Architecture for scalable learning modules.

Cleany App
Implemented GoRouter, Provider, Responsive UI, and API integration for dynamic content.

Fitness App
Built using pedometer, fl_chart, shimmer, and responsive UI for fitness tracking.

Rusheta Windows App
Built using Provider, sqflite, shared_preferences, with PDF generation and printing features.

Skills

- Flutter & Dart: Flutter framework, Dart programming, Animations, Clean Architecture, Performance Optimization
- State Management: Bloc, Provider
- Backend & Database: RESTful API Integration, Firebase (Auth, Firestore, Realtime DB, Storage), Supabase, SQLite, Hive, shared_preferences
- Payments: Paymob integration, Stripe, Paypal
- Tools: Git & GitHub, JSON

Personal Skills

Teamwork, Communication Skills

Writing clean, maintainable code

Have a great passion to self-learn new things

Time Management, Attention to Detail

Skilled in Agile & Scrum methodologies
